

PORTABLE FIRE EXTINGUISHERS

Domestic Liquid Fire Extinguisher, 2 L, Red

Red 2 L ABF liquid extinguisher with FUREX agent for kitchens, living rooms, and bedrooms where a recognisable red domestic cylinder and Class F cover are preferred over a workplace-rated EN 3-7 portable.

- Class A, B, F, and electrical to 1000 V
- ABF liquid for cooking fats and oils
- Red metal basket wall hanger in the box
- 368 mm high, 3.5 kg, red domestic cylinder

PRODUCT OVERVIEW

European-manufactured supplementary domestic liquid extinguisher from OGNIОCHRON S.A. in Poland, model UGPN-2x ABF/M (Domowa 2 red), sized for kitchens, living rooms, bedrooms, and hallways where buyers want a recognisable red cylinder on a wall hanger. The 2 L charge combines demineralized water, FUREX A, and a FUREX AFFF cartridge for solids, flammable liquids, cooking fats and oils, and energised equipment to 1000 V, and operates from +5 °C to +60 °C. Each unit ships with a red metal basket wall hanger. The cylinder is designed for dwelling interiors rather than calculated workplace ratings: it does not carry EN 3-7 or CNBOP-PIB approval because of the non-standard label, and is intended as additional home fire safety equipment, not as the primary portable for a public building or commercial premises.

Values are the declared specifications for each article and are confirmed against the delivered batch on the order confirmation.
