PRODUCT OVERVIEW

Polish-manufactured vehicle safety kit from OGNIОCHRON S.A., trade name Zestaw bezpieczeństwa do samochodu, sized for passenger cars, camper vans, and small fleet vehicles where buyers want fire cover, first aid, and breakdown marking in one consignment. The bundle pairs a GP-1z BC/M 1 kg BC powder extinguisher certified to EN 3-7 with CNBOP-PIB approval, a moulded plastic vehicle hanger, a DIN 13164:2022 first aid kit in a red Ogniоchron pouch, a high-visibility warning vest, and a foldable warning triangle. The extinguisher covers flammable liquids, gases, and energised electrical equipment up to 1000 V. The first aid kit, vest, and triangle address roadside first aid and visibility rather than fire classes. Motor-trade retailers and fleet buyers stock one article number when every vehicle needs the same boot kit rather than ordering extinguisher, hanger, and accessories separately.

Values are the declared specifications for each article and are confirmed against the delivered batch on the order confirmation.
